| Issue	Date	Remarks
A	Jun 2009	First issue
B	Mar 2011	Added 7409-K060 support

Introduction

This kit provides an arm that is used to mount various NCR pinpad devices on the side of a Fixed Angle Mount (7409-K035) or the Printer Pedestal Upper Cabinet (7409-K060).

Generic Pinpad Mount

Pinpad Device

7409-K035

7409-K060

29496

The mount is used in conjunction with device specific mounting bracket kits to install the various pinpads.

**Note:** The components are identical for both mounts except for the Pinpad Arm Mount Spacer.

Pinpad Arm Mount Spacer
* Use 7409-K571 spacer when mounting a 19" 7409 to a 7409-K035 Mount
* Use 7409-K071 Spacer on "all" 7409-K060 configurations.

Installation Procedures

Warning: Disconnect the AC power cord before disassembling the Terminal.

Note: The 7409-K035 Fixed Angle Mount is shown in this procedure. The components are installed in a similar manner for the 7409-K060. The primary difference is that the mount requires a different Pinpad Arm Mount Spacer.

1.   Remove the cable knockout from the side of the Fixed Angle Mount. This is accomplished by tapping the edge of the knockout with a hammer and then twisting it out with pliers.

2.   Remove the screws (2) on the sides of the Fixed Angle Mount.

Cable Knockout

Screw
(One on each side)

3. Raise the bottom of the display and rest it on the Display Support.

Cable Cover Captive Screw

Display Support

26680a

4. Loosen the captive screw that secures the Cable Cover.
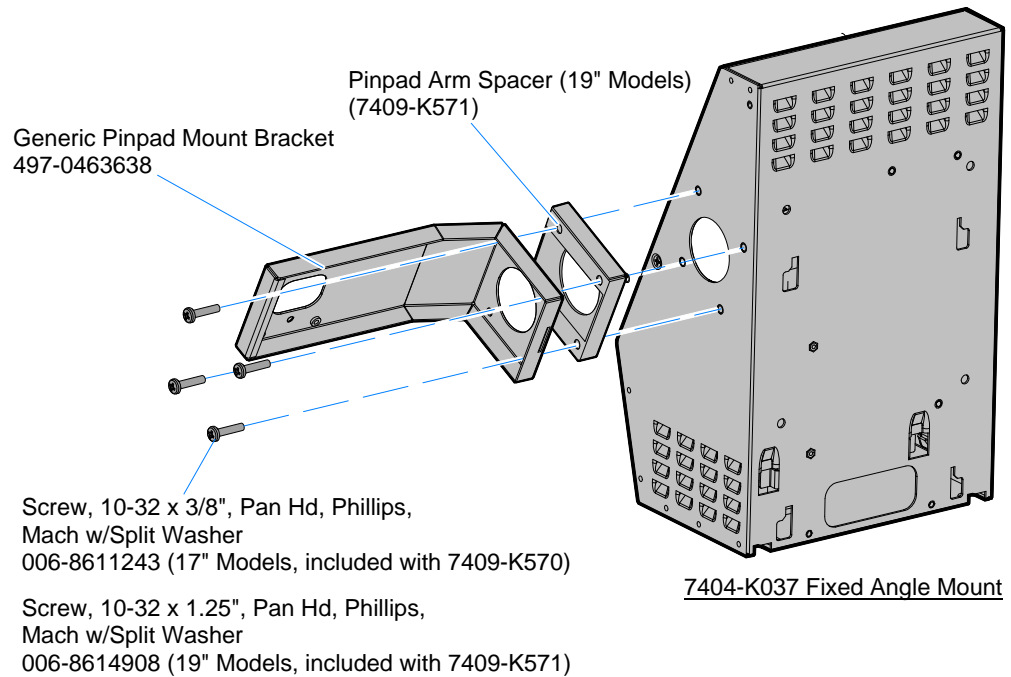

5. Remove the Cable Cover.

Note: The terminal is shown removed from this point forward for clarity.

6. Install the Generic Pinpad Mount Bracket on the side of the mount/cabinet.
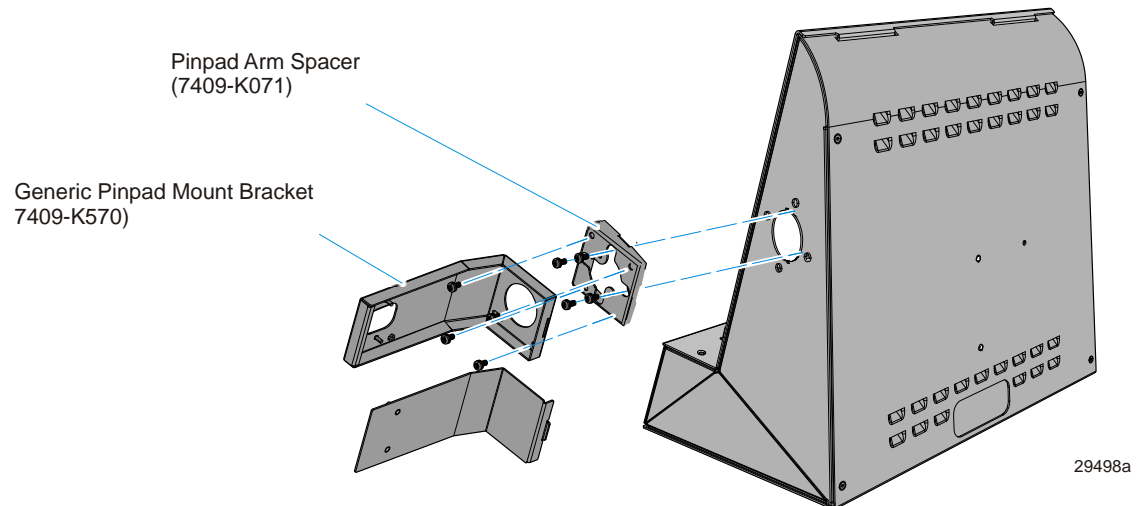

7409-K035 Fixed Angle Mount
Secure the bracket and spacer with screws (4).

Note: Also install the Pinpad Arm Spacer if your terminal is a 19″ model. The spacer is not required with 17″ models. Use the proper length screws. The longer screws are supplied with the spacer kit.
